

Caring for the earth / Inheriting from generation to another is San Fang's unshakable central idea for the past 50 years~

The faith of environmental protection / sustainable management... has never been shaken by the overseas expansion of production bases!

We use the most practical actions to prove our commitment to the consideration for earth!

After San Fang China / San Fang Vietnam

San Fang Indonesia also simultaneously to raise the level of sustainable management

From May 2023...

San Fang Indonesia has raised the utilization the rate of green power, from 50% to 100%

With this upgrade, we have taken a huge step towards the ideal of "net zero emissions"~

Sustainability is not a slogan...it is an action
Please join us and step into the future of Green!

Let's go GREEN!
