

# San Fang Vietnam Leads Mountain Cleanup Effort

## Together for **Forest** Protection San Fang's Commitment to Sustainability Begins with the **Heart**

At San Fang, we believe that true innovation goes hand in hand with environmental stewardship. Our pursuit of excellence in products and services is matched by our dedication to creating a positive impact on society and the planet. Sustainability is a key value embedded into our company's DNA.

In line with our belief that sustainable business starts with cherishing nature, San Fang Vietnam organized a mountain cleanup event on July 13, 2025, mobilizing our team to take direct action in preserving the natural beauty of our shared environment.

This initiative reflects our commitment to ESG principles, fostering a culture of responsibility and care.

Every piece of litter removed is a promise kept to our community and to future generations. Through this hands-on effort, we demonstrate that sustainable development is not a slogan, but a call to action.

**Together, we protect the forests. Together, we build a better tomorrow.**
