

When Fashion Meets Sustainability

SS27 Catalog

Dear Valued Partner,

As global industries move toward sustainability, synthetic leather development continues to break new ground.

It has evolved from traditional petrochemical processes into a **new generation of materials** that combine:

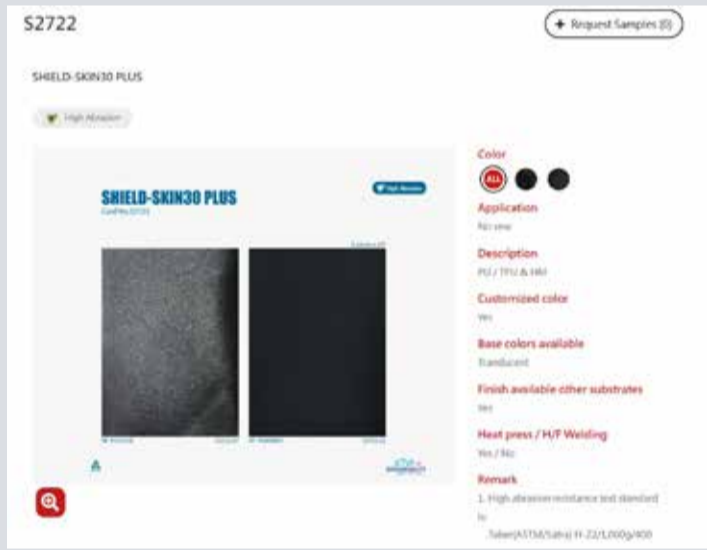

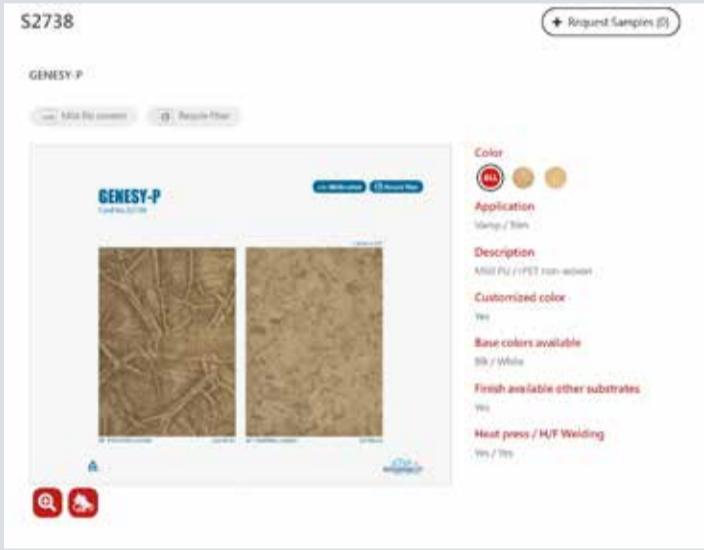

- Environmental responsibility
- Resource circularity
- Functional innovation

In line with this international trend, we are proud to announce:

SS27 Catalog Now Available

Sustainable Innovation

Crafted with eco-friendly materials to effectively reduce carbon footprint.

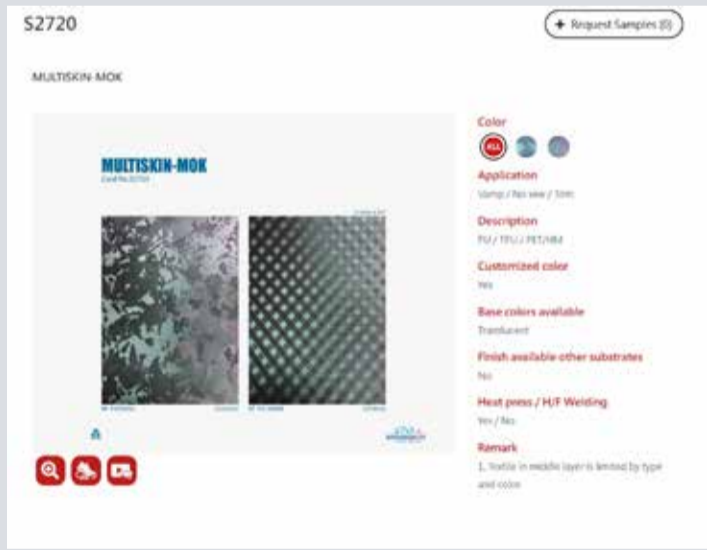

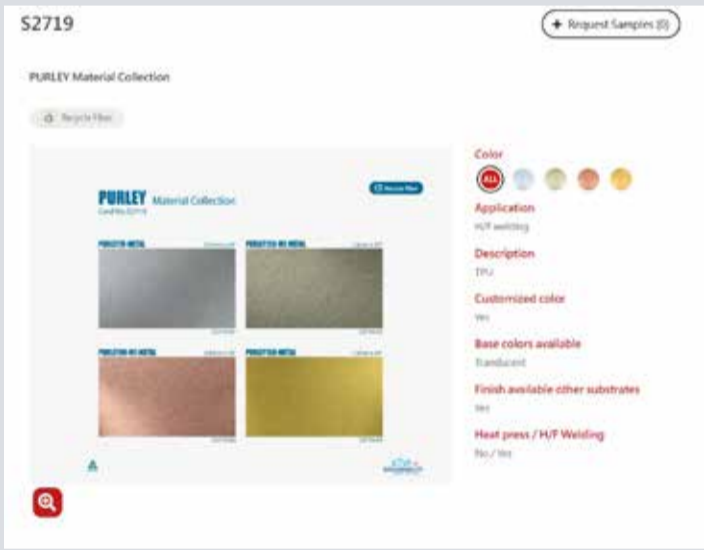

Lightweight & Durable

Designed to be light yet resilient, ensuring long-lasting durability.

Circular Design

Features recycled components, reflecting the true spirit of resource circularity.

Fashion Forward

Inspired by global SS27 trends, offering depth, freshness, and aesthetic appeal.

Why It Matters

SS27 Catalog is more than a practical tool.

It embodies a commitment to

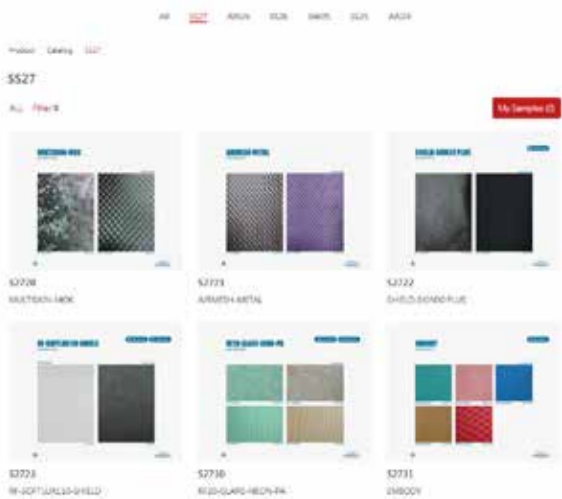

Efficiency × Aesthetics × Sustainability.
